To our Friends and Customers

We are pleased to present to you our 1942 catalog and hope you find it instructive and useful.

This catalog was printed in our own print shop except the front page which was printed by White's Job Service of Belgrade. The picture on the cover was made from photographs taken at our farm.

As many of you know I am the manager of this business and have had many years experience in raising seeds, nursery stock and gardening. My number in Selective Service was called in February but I was deferred until July 1. We should be willing to serve our country in any way we can, either by growing more food or by serving in the Armed Forces. Uncle Sam needs food so grow a garden if you can.

Although crops of many seeds are short we have tried to keep our prices as low as possible.

FISHER SEED & NURSERY CO.

K. J. Fisher

Order early and avoid delay. Early in the season we have a complete stock of all varieties and you can be sure of getting what you want by ordering then.

You will notice that most items are priced postpaid to you. For those not prepaid just send us a card and we will quote you a postpaid price. Trees over 4 feet must go by Express.

Shipping season for trees and shrubs begins about March 15 and continues to about May 15 depending on whether the season is early or late. We advise planting trees and shrubs before they leaf out as you will be more sure of success.

The numerous items listed have been selected with the greatest care. Every lot of seed is tested in the strictest manner before being offered for sale.
